

Jooluri Manitej

Machine Learning Engineer

6303955456 | manitej411@gmail.com | linkedin.com/in/joolurimanitej | github.com/manitej411

Professional Summary

Computer Science student with hands-on experience in Python and Artificial Intelligence and Machine Learning, interested in building practical, data-driven solutions. Passionate about developing end-to-end applications by combining artificial intelligence and machine learning with backend development and modern web technologies.

Projects

Stock Price Prediction

Python, Pandas, NumPy, Scikit-learn, FastAPI

stock-price-prediction-swart.vercel

- Developed a Linear Regression model to predict the next-day Tesla closing price using Open, High, Low, Close, and Volume features.
- Preprocessed historical stock data and evaluated the model using MAE, RMSE, and R^2 score.
- Built a FastAPI REST API to serve predictions from the trained ML model and integrated it with a web-based frontend.
- Achieved an R^2 score of 0.94 and RMSE of 12.37, demonstrating the model's prediction performance.
- Deployed the complete application with Render (backend) and Vercel (frontend).

AI Agentic Travel Planner

Python, FastAPI, React, TypeScript, Generative AI

- Developed an AI-powered travel planning application that generates personalized travel itineraries based on user requirements.
- Designed a multi-agent architecture with specialized agents for transportation, destination guidance, activities, and conversational travel assistance.
- Built a FastAPI backend with dedicated API routes, request validation, agent orchestration, response assembly, and output validation.
- Implemented context building and agent-specific processing to provide relevant information to different components of the travel planning workflow.

Technical Skills

Languages: Python, Java, SQL

AI/ML: Machine Learning, Data Preprocessing, Deep Learning, Transformers

Backend: REST API

Frameworks & Libraries: Scikit-learn, Pandas, NumPy, Matplotlib

Frontend: HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code, Jupyter Notebook

Databases: MySQL

Education

Neil Gogte Institute of Technology – Uppal.

B.E-CSE (Artificial Intelligence and Machine Learning)

CGPA: 7.52/10

Hyderabad, Telangana

Sep 2023 – Jun 2027

Certifications

- AI Pathway: Generative AI and AI Agent - Q2 2026 — IBM SkillsBuild
- Machine Learning Training Certificate - Corizo Edutech
